August 7, 2023

To Whom It May Concern:

LUBRIPLATE NSF H1 approved lubricants do not contain any of the allergens specified by:

- CAA (Consumer Affairs Agency)
- Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA)
- Annex II European Regulation 1169/2011

including, but not limited to, shrimp, crab, wheat, buckwheat, egg, dairy products, peanut, almond, abalone, squid, salmon roe, orange, cashew nut, kiwi fruit, beef, walnut, sesame, salmon, mackerel, soybean, chicken, banana, pork, matsutake mushroom, peach, yam, sulfur dioxide, and gelatin.

LUBRIPLATE NSF H1 approved lubricants are TSE/BSE compliant. LUBRIPLATE NSF H1 approved lubricants do not contain any materials of animal origin or animal origin derivatives, and they do not come in to contact with such materials during processing.

LUBRIPLATE NSF H1 products are not produced or manufactured using mineral oil saturated hydrocarbons (MOSH) or mineral oil aromatic hydrocarbons (MOAH).

LUBRIPLATE NSF H1 approved lubricants are developed and manufactured in an ISO 21469 (Safety of Machinery Lubricants with Incidental Product Contact Hygiene Requirements) registered facility.

If you have any questions on the information provided above, please call LUBRIPLATE Technical Services at 1-800-347-5343 or send an email to LubeXpert@lubriplate.com.
